RECEDITING FOR HANGOCK'S CORES.-We desire to call special attention to the advertisement of Provost Marshal Nash, which appears in this morning's paper, stating the conditions of recruiting for the First Corps, now being recruited under General Hancock. This corps will be the Tenth Legion, the Imperial Guard of the whole army. It is to be composed entirely of veteran soldiers, enlisted for not less than one year. Recruits will be furnished transportation to Washington, and will be paid a special bounty of \$300 by the Government. Recruits are constantly offering and we learn that the corps is be-

ing very rapidly filled up. We call the attention of District and Sub-district recruiting committees to this rare opportunity to obtain men. The corps will be a most honorable one, and many who refuse to go as su estitutes will gladly join it. The government offers a bounty of \$300, which, with the addition of a township bounty, will form a handsome reward to the recruit. A large number of veteran soldiers in every sub-district of the State, might, with a little effort, tion Company, have just laid up at this be induced to re-enlist.
